SIX BALLOONS ENTER FOR RACE.

New York, May 5 .- The Aero Club

of America, has announced the en-tries of six balloons in the first national championship cup competition to be held June 5, at Indianapolis. Two of the pilots have not yet chosen aides. Each pilot will receive a silver medal given by the Aero club and the aides will be given a bronze medal. The list of participants follows:

A. Holland Forbes, pilot, and Clifford B. Harmon, aid. A. H.' Morgan, pilot, and J. H. Wade, Jr., aid.
Carl Fisher, pilot, and G. L. Bumbaugh, aid. A. B. Lambert, pilot, and H. P. Honeywell, aid.

The two pilots who have not yet chosen aides are Charles Walsh and John Berry.

The contest will start on the grounds of the Indianapolis Motor Speedway about ten miles from the center of the city at 5:30 o'clock Saturday afternoon, June 5. All of the balloons will be of 89,000 cubic feet capacity. The contest is for distance, the pilot who makes the longremains in the air lougest.

Gook Tours of Europe

For Sixty-Seven Years the Cook Tours of Europe Have Been Recognized as the "Only Way" to See the Old World.

All People of All

Whether of Excessive, Large or Moderate Means, Those Who Wish to Visit Europe Under the Most Auspicoins Circumstances to See All That is to Be Seen, in the Most Convenient Manner and Get the Greatest Enjoyment From the Trip, Use the Cook Tours.

FOUR FREE TOURS EUROPE

To Be Given by The Times-Democrat to Four Women of Lima and Allen County Will Use the Cook Tours. The Same Used by the Majority of People from Lima Who Have Toured Europe.

Get in the Contest and Win ONE of These TOURS.

ADVANTAGES OF A COOK TOUR...

The almost universal adoption of the custom of associated travel conclusively establishes its real value. Its advantages are now recognized by all travelers-the great economy of time effected by the tourist being everywhere expected and prepared for in advance, the freedom from care, the certainty of obtaining suitable accommodations, even in the height of the season, and the definite cost. The work and worry inci-dent to the care of baggage, the difficult question of "tips," and other responsibilities are avoided. It is the ideal way of enjoying pleasure travel, particularly abroad. Our 67 years' practical experience and immense facilities enable us to give superior and exclusive advantages and service to our patrons,

STEAMSHIP ACCOMMODATIONS.

First-class accommodation only is provided for these tours: there is no real economy in using inferior grades, involving social distinctions. The steamships selected are the finest Atlantic liners in the Allan Line Company's service. Comfortable accommodations in stateroom with one or two other passengers, according to steamer.

LIMIT OF MEMBERSHIP.

The size of the parties is strictly limited to a convenient number of members. The average membership of our tours is from twenty to twenty-five persons. The right is reserved to require satisfactory references from intending members.

PLAN, OF SIGHT SEEING.

The plan of sight-seeing is carried out in the most compide and liberal manner, cariage drives arranged in the various cities and competent local guides, thoroughly familiar with the various places visited, being provided.

CHAPERONES FOR PARTY.

Are carefully selected from a permanent staff for their kinwledge and experience of the routes and conditions of trivel, and other business and social qualifications. The condectors meet the parties on arrival in Europe, and accompany m over the entire route, according to itigerary, until the ebbarkation for America. These gentlemen are never in unifem, and are quite distinct from our standard uniform intereters at the principal railway stations in Europe, whose serv-es are at the disposal of our patrons without charge.

BOTEL ACCOMMODATIONS.

Our parties are accommodated only at first-class hotels at can be thoroughly recommended, the accommodation naisting of bedroom, lights and service, and three meals per y-meat breakfast, and table d'hote lunch and dinner, acrding to the custom of the hotel.

When traveling or sight-seeing at distant places, meals served on dining cars or at suitable restaurants, according circumstances, full board throughout being included.

THE BOUTE OF TRAVEL

Are comprehensive and attractive, and offer as much variety of interest as is possible in each case. The comfort or the members is promoted by breaking the journeys convenient. ly, and in the avoidance of a succession of long and tiresome journeys. Where night travel is unavoidable, sleeping car or steamer berths are included in the cost of the tour.

RAILROAD TRAVEL.

The class of accommodation used for vacation touts is second-class on the continent of Europe, that being the usual custom of American tourists, and corresponding to first-class in

In this connection it may be well to mention that the conditions of railroad travel in Europe differ considerably from those of the United States, there being no less than four classes, or grades of passenger accommodations in many countries

BAGGAGE FREE

On steamship, 150 pounds of baggage will be carried free and on the continent the party will have the free transporta-tion of 66 pounds of registered or checked baggage, and in addition, members have the privilege of taking suit cases or vallses, which are transferred to and from trains, hotels, etc. without charge. Baggage should be marked with the owners name in full.

1.000 terday, 1.000 Mr. David Tolan, of this city, left this morning for Van Wert, and it is .750 .500 who married daughters of the sister

> ion that murder and not suicide will be found to be the cause of death should the dead man prove to be George Tolan. The habits of Tolan were such that he was frequently robbed by unscrupulous companions, and the fact that he was possessed of a large sum of money would further this theory.

Van Weit,
of a man taken to the morgue in St.
Louis, April 18, was, it has developed, that of George Tolan, who left
on April 13 to visit a brother in Fauna, Texas. It is now believed he was murdered. He car-ried \$200 in cash and a certificate of deposit for \$900 in the People's Bank of this city. April 18, the certificate of deposit came for collection 100 tificate of deposit came for contact to the from Louisville, Ky., purporting to be indorsed by Tolan. But the bank to seat it not being sure Rain took a hand in the schedule here refused to cash it not being sure of the signature.

the Burtt, who was in the city redetade working on the plans for the remodeling of the federal buildng, and who came from the office of the ellervising architect at Washagena. D. C., has gone back, having completed his preparatory plans.

As they stand at present, the plans centemplate a considerable change in the atesent building. The tower that at present crowns the upper part will be removed and the roof flattened. loward the south and to the east additions will be made, two stories in height, and between twenty and thirto feet in either direction. Then between these two wings will be placed a one story room, with large skylight above, which will be used for the regular work room, where the mail is sorted, etc. In fact that part of the postoffice is at present the most ramped and the carriers are very much in each others way.

It may also be possible that the appearance of the building even to the kind of brick used, may be chang-The present red brick may be taken away and vellow or brown blick used instead. When the active work begins the office force may have to hunt temporary quarters for some nonths while the work is going on, but this is rather far in the future vet, as the time for active operations

s not definitely settled yet. No additional room is needed on the second and third floors as the present offices are amply adequate to house all the officials who are supposed to be quartered in the federal

A TEST

Of the Various Kinds of Pavements.

At this time while much discussion is being had among the property owners on west Market and Spring streets as to the probable kinds of material that will be used thereon, if might be well for those interested to make a simple test by going to the corner of the Masonic Temple and observe the travel.

Here are to be found four kinds of pavement. Brick in the inter section of Elizabeth and High street. asphalt on the north and south sides of this intersection, and the "new kind of asphalt block joining it on the west and the confessedly bad variety of asphalt block just west of the new kind.

The argument has been made against brick that it is too noisy on

some street and is unsanitary. to to the corner named and stand there until a dozen of rigs have passed over the intersection named and then answer for yourself which is the more noisy material.

it is said by those who have made terested to make some observation the test that it is impossible to de as to sheet asphalt as it is claimed but any less noise and rattle when that more square sards of it is being a rig is going east and west on High laid every years than of any two or street over the new asphalt. Block the other kinds, combined which than when it goes over the old means that it must generally be zivasphalt block or the brick. In other ing satisfaction even though our exwords there is no less noise from the perience has been varied. While one kind of these three materials making the test for noise at the corthan from the other. Brick has been ner spoken of above notice the quiet quoted as being unsanitary as com- and ease of the rigs as they proceed pared with asphalt block. Make an- along Elizabeth street until they other test. Go upon the new piece strike the brick and asphalt block of asphalt block early in the morning when the noise increases many before the sun has dried off the top times. It is said by those who have and see if there is not a line of mois-examined. Elizabeth, and Metcalf tate between the blocks. It is said streets that they are fine specimens

firsk are usually laid with a filler well for the council to walk over it man, and one woman are among the which prevents water from getting tamorrow when in that city looking dead, between them or in the sand cushion at the dam. under them . If this is true it would, Do not be hasty in condemning any seen that it is doubtful if the block material or in making the selection asphall is as sanitary as the brick, of material for the most important Water is said to be detrimental to street improvement work of the year all asphalts so if there is really much. the in fact any asphalt in these blocks n would seem that water has every thance to do its greatest damage by getting under the block, on both sides and the ends as well as on the ion and working havoe. Water would not thus effect brick. It is therefore fontaine avenue, have as their guest thanned by the brick interests that Mrs Ida Overmyer, of Fort Wayne, asphalt block is as noisy as brick, is Ind. not as sanitary as brick, is more susceptible to the action of water, is Blue Grass league, of Cleveland, is in more expensive at first cost and is the city visiting Miss Margaret Veasand as durable as brick and that it ey, of north West street. has no one point of excellence over black It is quite true Lines has had confined to his home at 217 east d Sid experience with most of its Kibby street, during the past two shert asphalt but no one can say that weeks with a serious case of phary-West North street is not a fair sam- ngitis and laryngitis. Chicago. May 5.—Dr. Wu Ting who has been half a century in Chicago, May 5.—If Great Britain, Fang, the Chinese minister, was China. He says, the Chinese believe gan today to act, byth reference to think it requires to be supported or gress. The minister expressed himself as especially proud to address the incred by might. In short, we be working for the posterity of the tarming fed infants—the trusts and favored classes.

Where did the republican party make the statement that it would revise the statement that it would revise the statement that it would not be people." Dr. Wu continued:

In a colorless phrase in the Chicago minister, was China. He says, the Chinese believe gan today to act, byth reference to think it requires to be supported or gress. The minister expressed himself as especially proud to address the incredibly makes right, and I am santered to infants—the trusts and favored conserved in the nation however that the whole world is coming around to his address at toight's session of the republican party in china, the says, the Chinese believe gan today to act, bythe requires to be supported or gramaments. In accordance with the spirit and purpose by the lique conference in the large conference in the large conference in the large conference in the said Edwin D. Mad, of Roston, in whole world is coming around to his address at toight's session of the republican party in the makes right and not he world to suddents the first makes right, and I am santered to might makes right and not he world to displicate the first makes right and not he president of the first makes right, and I am santered to might makes right and not he spirit and purpose by the lique conference. The spirit makes right and not he president of the first makes right, and I am santered to might makes right and not he spirit and purpose by the spirit and purpose by the spirit and purpose by the first makes right, and I am santered to think it requires to be supported to mornow. The said the first makes right and not require to the sa

When Indiana elected a governor last fail, the saloon question was a paramount issue, and the election of Marshall, a democrat, as chief executive was touted as a victory for the whiskey and brewing interests.

Then came a legislative contest to repeal the local option law Governor Marshall said the law should stand, and the organized effort of the liquor interests failed to should stand, and the organized effort of the liquor interests failed to mullify it.

That was the first hard blow the business, but not the list.

Last Wednesday he paroled a prisoner serving at term in the Indiana state prison, that is doing so imposed as a condition of the execute converges that "He secure complexation of the excellent showing made by located to receive year step of the American Peace Conference in this capture of the world at large, and I can tion of the peace movement as the propagation to the London congress of 1908

The progress of the peace movement as the progress of the peace movement, and preparations for pushle wars 65 per treatment of the said. "The first is one-third available for all construction of the second conference of the said and the law should stand, and the organized effort of the liquor interests failed to mullify it.

Last Wednesday he paroled a prisoner serving a term in the Indiana state prison, that is doing so imposed a prisoner serving a term in the Indiana state prison, that is doing so imposed a program of reform, as a condition of the exercise that "He secure complexion in the excellent showing made by longerated to bring it to success. Other chinery of law, above all the actual lease that "He secure comployment in our troops of the Northern and South-Loadon in 1850, 1898 and 1908

PINDLAY TO HAVE AIRSHIP FACTORY.

Findlay, O., May ...-Findlay is to have an airship factory. The product to be manufactured is the invention of a former Findlay boy, R. W. Harroum, now of Chicago. He is backed by capital in the Windy city. He will come to this city at once where the exhibitions will be made.

THE VALUE OF PROPRIETARY MEDICINES

is proven by the very large percent age of physicians' prescriptions for the same remedies found in every drug store in America, but as they are written in Latin, few patients realize this fact.

The old standard proprietary medicines like Lydia E. Pinkham's Vegetable Compound, that have tood the test of time, deserve a place in every family medicine chest and it is most certain they would not be prescribed by physicians if they were able to devise a formula equally as efficacious.
